After completing the 8th Grade 2015 Science STAAR test for practice, use this page to analyze your results!

Reporting Category 1: Matter & Energy

The questions below tested your knowledge of the Matter and Energy. Color the question boxes that you got correct. Was your knowledge strong in this area? How did it affect your total score?

9 11 15 17 22 24 27 33 36 39 45 48 51 54 Total Correct

Reporting Category 2: Force, Motion & Energy

The questions below tested your knowledge of force, motion, and energy. Color the question boxes that you got correct. Was your knowledge strong in this area? How did it affect your total score?

3 5 12 14 19 25 30 35 37 43 49 52 Total Correct

Reporting Category 3: Earth & Space

The questions below tested your knowledge of Earth and space. Color the question boxes that you got correct. Was your knowledge strong in this area? How did it affect your total score?

2 7 10 13 18 20 26 29 32 34 38 41 47 50 Total Correct

Reporting Category 4: Organisms & Environments

The questions below tested your knowledge of organisms and environments. Color the question boxes that you got correct. Was your knowledge strong in this area? How did it affect your total score?

1 4 6 8 16 21 23 28 31 40 42 44 46 53 Total Correct

Add the totals from each row above and graph the total number correct on the bar graph below.

Your teacher will tell you what the passing score is for STAAR. The advanced level score is 46.

The questions below also tested your scientific investigation and reasoning skills. Color the question boxes that you got correct. How did your science skills affect your total score?

2 6 7 8 10 13 14 15 16 19 20 21 23 25 26 28 Total Correct

29 30 31 32 35 38 41 42 44 45 46 47 48 49 52 Total Correct

What do you need to work on to PAR the STAAR?
